

AP Stats Green School Project Rubric

Names: _____

8 points – test for electric

- ___/1 hypotheses correct and parameters defined
- ___/1 appropriately chose 2 sample t-test
- ___/1 checked assumptions/conditions
- ___/1 graphs for data to check for normal correct
- ___/1 test statistic and df correct
- ___/1 drawing for test statistic correct
- ___/1 correct conclusion made based on p-value
- ___/1 conclusion in context correct

4 points – write up

- ___/1 no uncommon statistical jargon used
- ___/1 explains how chose data to use
- ___/1 results match with test performed
- ___/1 conclusion well written

8 points – test for gas

- ___/1 hypotheses correct and parameters defined
- ___/1 appropriately chose 2 sample t-test
- ___/1 checked assumptions/conditions
- ___/1 graphs for data to check for normal correct
- ___/1 test statistic and df correct
- ___/1 drawing for test statistic correct
- ___/1 correct conclusion made based on p-value
- ___/1 conclusion in context correct
